

# Owl's Earth and Sun Discovery

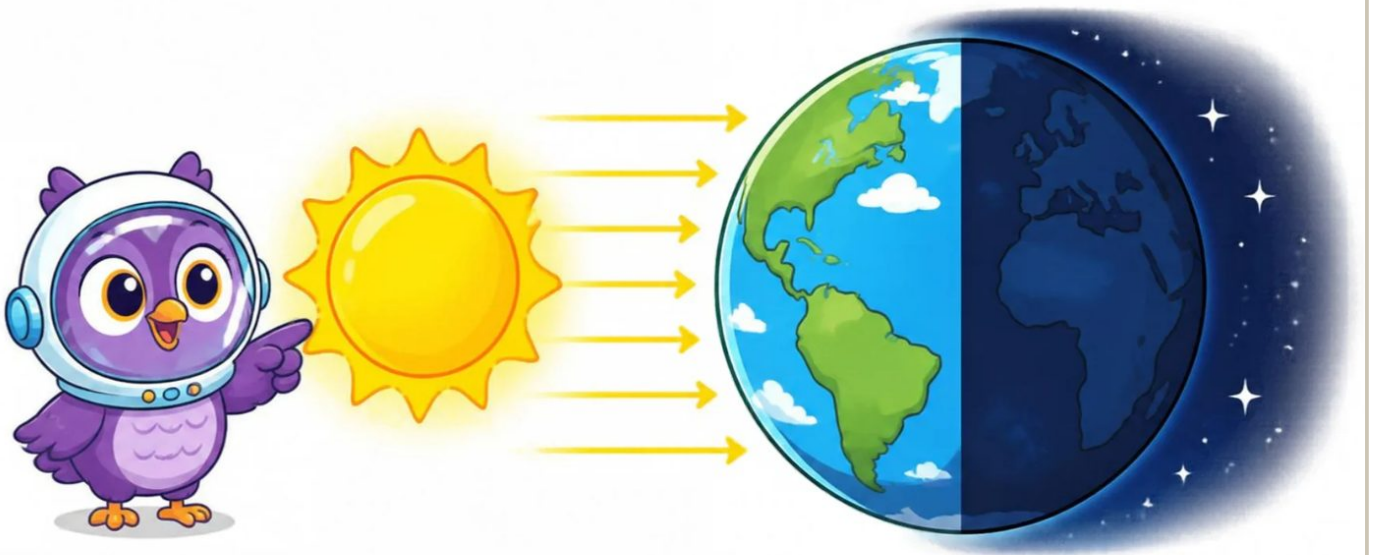

Circle the side of Earth that has DAY!

Name \_\_\_\_\_

\_\_\_\_\_ Date

## Owl's Earth and Sun Discovery

Circle the side of Earth that has DAY!

**A. LEFT SIDE OF EARTH**

**B. RIGHT SIDE OF EARTH**

### My Earth observation

Draw your house — is it day or night there?

### For grown-ups

The LEFT side has day — the sunbeams land there. The dark right side is having night, and Earth's slow spin swaps them round.
